

STRATHCONA NEWS

THE STRATHCONA HIGH SCHOOL LITERARY SOCIETY

The Successful Party Making Plans For an Enjoyable Winter. Complete Program of Events for Various Associations.

The Literary Society of the Strathcona High School has entered upon its second year to date, and the prosperous year of its history. The school has now reached a size where this literary organization has been brought into play. The two parties—Patriots vs. Literary party—February 7, meeting with Edmonton; February 14, evening meeting and dinner at the Hotel Alberta; February 17, meeting with Edmonton; March 20, dramatic sketch; March 20, contestants; Patriots vs. Literary party, March 27, closing meeting for the year.

LOCALS.

A large number of Edmonton people were visitors to Strathcona last night to enjoy a skat at the newly-opened skating rink.

It is planned to have a rink at the school, certain gymnasium equipment for the purpose will be obtained.

In addition to the very interesting programme of Friday afternoon was a musical program.

The athletic association has also been reorganized with the following officers:

J. S. Walter, president; Mrs. Paul, vice-president.

W. H. McLean, treasurer.

This association manages all the sports carried on under school auspices, and is making every preparation for the inter-school hockey league in Strathcona and for the inter-school football competition.

There was there an amateur corps on the part of all the members of the school and the board and staff are much pleased.

A glee club has just been organized which has already made a great stride in developing an interest for itself, and the sessions of the literary society have been well attended and enjoyed frequently with song and glee.

Lloyd Fleming is acting as coach, and the club is composed of thirty members, though it yet in its early days.

November 22, business meeting; November 23, literary meeting; December 6, ratemakers' meeting and election.

BAPTIST CONVENTION
ORGANIZED FOR WEST

Meeting in Calgary Approves of Report Recommending Convention For Four Western Provinces.

Calgary, November 21.—The Baptist convention of Western Canada has met in Calgary, Alberta, this morning by the adoption of the following: "That the accredited delegates of the Baptist conventions of Manitoba, Saskatchewan, Alberta and British Columbia, in convention assembled at the Hotel Jasper, November 19, 1907, in the city of Calgary, do now approve of the action of the joint committee of the Baptist conventions of Manitoba and the Northwest, and the Baptist convention of British Columbia, in organizing a Baptist convention in Western Canada, and do ratify the same, and further, that we now proceed to the question of the constitution, prepared by committee." At ten o'clock Rev. D. B. Harkness of Winnipeg, read the constitution, which was adopted unanimously with but few amendments.

The report of the committee, as along the lines of the conventions of Ontario and Quebec, and the old New England, was approved.

The report of the Home Mission Board, on home mission work done in individual fields is also approved, and the same, of a general nature being given more attention. Special mention was made of the work of the Home Mission Board on an evangelistic campaign, which would reach every church in the conference.

In the afternoon satisfactory reports were received from the Brandon and Okanagan colleges, also from the publication board and committee on Baptist union.

FOOD FACTS

There is more albumen and fibrin (the strength giving elements of beef) in a bottle of Bovril than in a ton of solid Beef Extracts.

Without these principles animal life can neither be built up nor sustained.

They are essential to life. Bovril is a scientific discovery not simply a mechanical reduction.

It is absolutely standardized. That is, its constituents do not vary, a fact which physicians appreciate.

Bovril is the only preparation that retains the elusive life-giving—Life sustaining principles found in beef.

Bovril is a boon alike to invalid and athlete.

Keep it Always on hand.

NEW C.P.R. FREIGHT TARIFF, Will Go Into Effect on Monday—Commissioner's Order.

Ottawa, Nov. 23.—The new freight tariff of the Canadian Pacific Railway will go into effect on Monday, says Mr. Killam, chairman of the Railway Commission, who has notified the company that the new tariff must enter into force until such time as the board has had an opportunity to further consider it.

Mr. Killam said that the board has taken on account of the heavy representations which have been received from Winnipeg and Brandon.

Mr. Killam, the secretary of the Winnipeg Board of Trade, reached the conclusion today, that the board will take the whole matter up as speedily as possible.

AN OPERATION FOR PARALYSIS. Montreal, November 23.—What is considered a remarkable surgical operation was performed yesterday at the Royal Victoria Hospital, where Mrs. Boyle, the wife of a telegraph operator of Vancouver, was operated upon, and will shortly arise from what is supposed to be a paralytic bed. A full account of the operation is given in the paper, and it is stated that her back was apparently broken, and as the injury yielded to no medical treatment, she was sent to Dr. Armstrong, after an examination, convinced himself that the patient was not a paralytic, but on a surgical examination found that a section of the vertebrae had become dislocated, and that the spinal column was compressed. The doctor turned to the lower limbs, and in a couple of weeks it is thought Mrs. Boyle will be able to walk again.

The case excited the good deal of interest from the successful way in which it was performed.

FROM DAY TO DAY.

MOTHER-PRIDE.
Oh, my! Oh, my! The year go by like shooting stars, are Barry's, But late I had a flippin' lad. And now he talks of marryin'! Little boy, you're a good strig. Of one that's grand an' fine! No, I see so prig that looks at him! But, son, you're a good strig. An' fair, 'twould do your heart good, too.

To him at the barney; There's scarce a lass that sees him pass.

But wears a smile for Barney—

A wishful smile for Barney.

The Capid lays cut snars these days.

With him goes phildelphian,

An' all his traps hold goss, perhaps.

None takes this bold young gender.

Ah! none as yet—but there's a net.

That will day one or other,

An' all the time, the same.

Is one like me, his son?

Aye! as sure as fate'll take for mate,

Wer' regular, Nora Kearney,

Who's always been a scurful

Who smiles,

As once I did with Barney—

My Barney—

The father of our Barney.

SOCIAL.

A jolly party of young people friends of Miss Emily Powell, dropped in on Thursday night at Mrs. Brown's and a very pleasant evening was spent. A number of pleasure-skating parties, held originally during the past week enjoyed the skating on the Rideau Canal, Stratford. On Monday night a concert different from previous evenings took place in Mr. Laval's, taking afternoons at Mr. Laval's and Mr. Smith's. On Tuesday evening a bright party went over in automobiles and on their return had a luncheon at Mrs. Powell's.

One of the largest dances given in Ottawa for a similar purpose that which was given at the home of Mr. and Mrs. Berkeley Powell last week, when Mr. and Mrs. Berkeley Powell introduced formally to their friends Miss Emily Powell.

The ball room was elegantly decorated with flags and electric lights.

Over two hundred guests were present. Mrs. Powell, a rich robe of cream princess lace over pink silk, and chiffon with diamond ornaments, was the belle of the house, charming in an expensive edition of green silk and trimmings, a crown of roses and lilies.

Mrs. Pardee, Mrs. Turnbull, and Mrs. Laval were also to be seen at the gay party this week.

Mrs. Kenny was the hostess at a tea party this afternoon.

The tea room was prettily adorned in gray silk crepe de chine with rich lace lace and couches of pearl-colored silk.

The tea room was prettily adorned in an elaborate costume of brown silk solitaire with cream lace border and a lace edging.

MR. McDUGALL FOR MAYOR.

The Bulletin cordially condemns Mr. John J. McDougall's support in his candidature for the mayoralty. It does not certainly from no spirit of antagonism toward his opponent, quite assuredly from no desire to deny any man the credit due him for services rendered the city, but with regard to the election of Mr. McDougall will prevail the exclusion of Alderman Picard from the city council for the coming year. The Bulletin must be understood as supporting Mr. McDougall, not as opposing him. Picard is entitled to the opposition of all. Picard is entitled to a frank and earnest support of Mr. McDougall on public grounds. When Mr. McDougall accepted the largely signed request asking him to become a candidate, the Bulletin expressed the view that a man selected could not be faulted and no argument has been advanced against his candidature sufficient to alter this view. For this reason the Bulletin tendered him its support, confident of his success at the polls, and will also discharge with discretion the heavy and important duties which will devolve upon the mayor of 1908.

WANTED: A STRONG COUNCIL.
The responsible leaders of the political parties have a field of independent candidates. There are six vacancies to be filled and the candidates so far placed in the field are scarcely more numerous than the vacant chairs. Nominations take place a week from Monday. Practically, therefore, only two weeks remain for the selection of them from among whom next year's council will be chosen. Nomination day is frequently profile in the production of aspirants, but the candidates thrust in to fill up the list in dates shown above are frequently chosen because they are available rather than because they are com-
pletely desirable.

It is perhaps a weakness of our form of city government that the executive branch of the administration is more conspicuous place in the public thought than the legislative body. It is to the commissioners that the rate-payer makes application for improvements to them in the first instance at least that he appeals with a grievance. He is compelled to do this before he comes in contact with the city council or concern himself particularly with the doings of that body. It is consequence the commissioners occupy the foreground in his thoughts to a far greater extent than either the legislative body from whom the commissioners obtain their power, and to whom they are answerable. The diversion of public attention from the council to the commissioners is a serious evil of government, but it is none the less harmful in its tendency to lessen public concern in the composition and behavior of the council. Having little business with the council, the rate-payer gradually loses sight of that body, and the influence of the commissioners over the council fades from his appreciation the position and prestige of the commissioners long in his view.

This condition is the more deplorable because of the opportunity it affords to an often small number of commissioners to exalt himself in the public view at the expense of the real governing body of the city. With the reins of power, so far as the rate-payer sees, in his hands, he may dispense favor to his personal friends and enemies, and, by his lavish expenditure, and make all things work together to the gratification of his vanity or the establishment of his interests. The council is the only safeguard against this process of aggrandizement, and the rate-payer can only hope that his constituents will maintain an almost unanimous vigilance. If a sufficient proportion of care-loving or indifferent aldermen can be secured to prevent a two-thirds vote for dismissal, this work may be carried on to perfection. The total eclipse of the council by the commissioners. The establishment of a virtual dictatorship is the peril to which the commissioners system opens the way, and that peril can only be avoided by maintaining the public recognition of the city council as the head of all authority and the repository of all power.

How readily the civic system lends itself to the utilization of the aldermanic body may be easily learned by making a few calculations. Suppose to name the present members of the city council. Probably one in three would be unable to do so, yet all could name the commissioners and probably the

heads of departments. This is an undoubted evidence of the amateurishness of the body, and to degree that it is necessary to amend it. The city council should be the publicly recognized body of authority, the parliament of the city. To be such it must be composed of strong men—men strong enough to maintain the ascendancy of the council and to impress the public mind with the fact that the council is dominant. It is desirable to have both, but as an alternative, a strong council and a weak executive is preferable. A strong executive dominating a weak council, for a strong council would soon dispense with a weak executive, Edmonton has many citizens capable of discharging the duties of alderman with benefit. It is to be hoped a goodly number of them will be induced to become candidates.

GOOD SERVICE APPRECIATED.

In recommending Mr. McIntyre, the Liberals of Strathcona have shown their appreciation of a worthy representative. Though his parliamentary record is not long, it is one of clear-sighted, persistent and effective service. His constituency should be proud. For steady daily attention to business Dr. McIntyre has distinguished himself by missing only three sitting days of the House during the sessions of the last two months. No man has given so much attention to public affairs and end with the session. During the past recess he has traversed the line of the C.P.R. from the provincial boundary to the City of Strathcona, has visited every district, and made known his views. He has practically given up the summer to learning at first hand the conditions and needs of the people he has the honour to represent. As a result he carries back to Ottawa an intimate knowledge of the local requirements of his constituency, and his record during the past two years is assurance that that knowledge will be turned to splendid public account. To represent well a constituency so large with so many varied needs and different interests, and one in constant evolution is no easy task. Yet no constituency in Canada is more faithfully represented, in none are the needs of the people so clearly defined, and no one is warmly interested, and his record in the extension of governmental services kept better abreast of the changing conditions.

His constituents appreciate such services and have testified their appreciation in a formal fitting manner.

A WELCOME ASSURED.

It is reported that Sir Wilfrid Laurier, accompanied by several members of the cabinet, will tour Western Canada next summer. It is to be hoped the report is correct, for it is in the interest of the country that the political leaders of both parties should recognize the growing political importance of Western Canada. It is now more than ten years since Sir Wilfrid made a political tour through the West, but he is no longer a factor in politics. The same twelve years ago it was to a wilderness interspersed with small settlements scattered at wide intervals. If he comes again he will find the wilderness waving with grain, studded with a hundred thousand towns, villages, and hamlets, and by railway connecting populous cities, thriving towns, and promising villages, whose names were then not on the map. In this marvellous transformation the progressive immigration and the growth of the Government have borne a splendid part—part which he will not find the people of the West slow to recognize or unwilling to admit. He will be assured a welcome far more cordial than he received twelve years ago, and the results of the tour would not be less satisfactory to him than the former pilgrimage.

Railway Man Turned Down.

Chicago, Nov. 22.—Striking switchmen at Waterloo, Iowa, were told today by first vice-president S. E. Hetherington of the Chicago, Burlington and Quincy that they must give up their right to walk back again or lose their charter. The switchmen, who headquarters in Des Moines, were told by the Iowa Central railway recently presented a new agreement to the railroad which required the railroad to pay the wages for total disability of the switchmen. They agreed to eliminate that clause. They refused, the company refused to pay, and the switchmen struck. The facts were immediately telegraphed to L. T. Hawley, president of the American Federation of Labor, and he wired in turn to President Taft, who wired to President Harding to go to Waterloo and revoke the charter unless the men went back to work at once.

Stonner Montcalm Was Ashore.

Montcalm, Nov. 22.—The Dominion government steamer, Montcalm, that came north of Anticosti had got off without a scratch after visiting Marconi wireless stations and taking away the operators and instruments for the winter.

HOLBROOK'S SAUCE

Griffiths Toronto Hospital.

Toronto, Nov. 22.—Dr. R. W. Bruce, physician to the hospital, has had a small hard crack in a temple on the request as to the advisability of the city granting them \$150,000. The General Hospital and St. Michael's are criticized in a general way.

The north wing of the latter should be closed and used for patients. The Grace Hospital was built in 1890 and has been heated. The Western hospital needs new buildings. The report says it is not fit for patients. Such institutions as Dr. on public funds.

Walked on Track in Snow Storm.

Kensal, Ont., November 22.—Wm. Stanhope, aged 39, was struck by a freight train while walking on the track yesterday morning. The boy was brought into Kensal, but died before reaching home. The deceased was a constable and at one time was a sergeant in the Royal Engineers, but received his medical treatment at the hospital. Papers showed he had been in ill health. Papers found in his pockets showed he had been in Dauphin, Manitoba, some months back. An inquest will be held.

The Montcalm Oil Rock.

Montcalm, Nov. 22.—The Dominion government teamster, A. G. Adams, of North of Anticosti, has gone without assistance. She was engaged visiting the Marconi stations taking away the apparatus and instruments for the winter.

THE COST OF LIVING
IN THREE BIG CITIES

A Comparison of Prices for Commodities and Rents in Edmonton, Winnipeg and Toronto.

The cost of living in Edmonton is compared with that in Winnipeg, Toronto and New Canada. This is the question frequently discussed by the people of this city. This question is more or less put on this year than usual owing to the general increase in money, prevailing both here and in Eastern Canada.

It has been suggested by some that the necessities of life, as well as the luxuries are more expensive in the larger cities. After a careful study in other cities and an investigation of recent prices show that in house rents especially there is a decided increase in the cost of living. Of course there are other considerations to be taken into account, such as food, clothing, fuel, and of public utilities, including water and electric light.

The following table gives just cause to congratulate themselves when they compare the prices they pay with those of their Canadian sisters.

The following table gives recently made an investigation into the figures here as compared with other Canadian cities.

Following is a comparison of the Edmonton, Winnipeg and Toronto grocery and meat prices. The Winnipeg and Toronto figures are from the industrial commission's report of the cost of living from the newspapers and those of Edmonton from the local dealers.

Groceries

Montauk ave., similar type..... 25.00

Follows are Toronto rents

These prices, however, are for residence distances from the business center of the city, none of those in 100 feet, for instance, being accessible within half an hour's walk.

Edmonton house rents are without doubt higher than either of the other two cities, probably because the houses are more spacious, the figures being obtained from well known real estate dealers who carry the largest lists of houses for rent.

West end, south of Jasper..... \$42.50

West end, north of Jasper..... \$30.00

Kinoshita ave..... \$30.50

Syndicate and Kinoshita ave..... \$30.50

West and Ross flats..... \$30.50

These prices, of course, depend largely upon the location, but, at the present time, in general cause, include all modern conveniences.

According to the Winnipeg commissioners of weights and measures soft coal, per ton..... \$5.85

Charcoal, hard, per ton..... 10.50

Lumber, per cord..... 10.00

Wood, per cord..... 10.50

A Toronto dealer supplies the best available at \$1.00 per lb. for the grade at \$6.50, beech and maple at \$7.50 and \$8.50, and soft at \$6.50.

In Edmonton the highest price for the best coal is \$4.50 per ton, while

the best wood is \$1.00 per lb.

For the best lumber, see above.

G.T.P. ROUTE THROUGH THE YELLOW HEAD PASS

Leak Says It has Been Finally Located
—Fish Commission No Unanimous and One Member Relents.

Vancouver, Nov. 22.—G. O. Leak, assistant chief engineer of the G. T. P. in the west, today announced that the final route through the Rockies had been located in the Yellowhead Pass. Surveys are now proceeding on the four hundred mile section between the Pass and Nechako and between the valley and the coast. The work is not completed and it is hoped to complete the survey during the winter to enable construction work to begin in the spring. It will require two years to finish from Edmonton to the coast. A great number of timber cruisers and land speculators are now in the north.

F. J. Cross, in the employ of the Fiji government and also sent as a special representative of the London government, has been engaged to propose to connect British Columbia with Australia by wireless, returned today. He declared his program could wait until station building was completed. The biggest jump will be from Vancouver to Fanning, then to Kamloops, then to Ellis Island and finally Australia. The making of an important link in world-wide wireless communications will be left to the British government. Cross installed a wireless system on Honolulu for a American company.

The Fish Commission has split and Campbell Sweeney, of Ottawa, has been appointed to return to Ottawa from Clifton Springs, N. Y., in about a fortnight. This is the last step taken by him to secure the government's support of his Sanitarium. It is greatly to be desired that the regulations for British Columbia be suspended. The commission was appointed several years ago and since has held no trials.

Colonel C. J. Prior, Victoria, gives notice he will return to the north to try to induce a company to build a railway line from Port Simpson to a point on the much sought

passage.

Death of an R.N.W.M.P. Constable.
MacLeod, Nov. 23.—Constable Alfred Clark, of the Royal Northwest Mounted Police, died at his home in MacLeod, having typhoid fever. He had been stationed on the Porcupine Hills, developing a new trail through the rugged, rocky and heavily timbered country. He was receiving injuries to his head, which had been fractured, and contracted the fever, which he expected to return in good physical trim for the labor of the season.

ROYAL CROWN SOAP

Equally as good for hard water as for soft

Many women complain that the soap made from a special formula for the hard water of this country does not give satisfactory results with hard water. Soaps don't remove dirt and grease completely.

Soaps made from animal fats thoroughly clean the clothes.

One ounce of Royal Crown Soap costs less than 8 bars of ordinary soap. Same price, but extraordinary value.
